

### Layflat Coated Banner PVC

Items	Value	Unit	Test Method
Base Fabric	Polyester		DIN60001
Both Side Layer	Polyvinyl Chloride		DIN60001
Production Method	Polyvinyl Chloride material coat on base fabric, then heating laminating process.		
Yarn	500x500	D	
Construction	28x28	sq.inch	
Weight	510	g/sqm	
Weight Tolerance	6.6% difference		
Tensile Strength (L/W)	1200/1200	N/5cm	DIN53354 or HG/T2580
Tearing Strength (L/W)	1800/1800	N	DIN53363 or HG/T2581
Peeling Strength	95	N/5cm	DIN53357 or GB8808
Temperature Resistance	-30 ~ + 70	°C	DIN53361
Fire Rating	B2		
Material Warranty	6 Months		
UV Resistant	Yes		
Mildew Resistant	Yes		

All above information shall only be used as a guide. Buyers shall independently test and determine the products suitability
